

AMERICAN RANGE

A **HATCO** COMPANY

Subject: Upcoming Price Adjustment – Effective August 1st, 2025.

6/11/2025

--In Lieu of July 1st price increase--

Dear Valued Customer,

We sincerely appreciate your continued partnership and the trust you place in American Range for your commercial cooking equipment needs.

We are writing to inform you that, effective August 1st, 2025, American Range will be implementing a price increase across our product lines. This is our first price adjustment since August of 2022. This is necessary due to several external factors, including rising costs in raw materials, freight, tariffs, labor and healthcare.

Please be assured that we remain fully committed to delivering the highest quality products and services you've come to expect from us. We have made every effort to minimize the impact of these cost increases, and this adjustment ensures we can continue to support innovation, maintain quality, and provide exceptional customer service.

Updated price lists will be available by July 11th, and your American Range representative will be in touch to provide details and answer any questions you may have.

Orders placed for equipment based on the August 2022 price list will be honored through August 30th, 2025, provided the requested shipment is no later than August 31st, 2025. Outstanding written quotations made prior to August 1st, 2025, will be honored on orders received in our office by August 5th, 2025, provided the requested ship date is prior to August 31st, 2025.

If you have any questions or require assistance, please contact our Equipment Sales Team or Customer Service Department directly at (818) 897-0808 or email us at info@americanrange.com

We truly value your business and thank you for your understanding and continued support.

Warm regards,

Chris Lawson
