

May 8, 2025

To Our Valued Industry Partners:

We are writing to inform you of a change to our current product pricing. All brands in the Blodgett product portfolio will experience a price adjustment of 4%, with INVOQ and Mini Combi at 5%, effective July 1, 2025. Orders received by 5:00 pm EST on June 30, 2025 calling for immediate shipment will be invoiced at current prices.

This announcement comes at the latest possible hour to best understand our costs while still providing the general market with ample time to implement said required pricing adjustments. As always, we remain fully committed to exploring cost reduction measures, while at the same time pushing new areas of product innovation. We sincerely appreciate your business and thank you for your continued support of our brands.

Sincerely,

Ryan Ricker

Vice President of Sales & Marketing
