From: Tim Wilczak, Vice President – Sales, Marketing, Products & Service, Delfield

Subject: Delfield Price Increase – April 1, 2026

Dear Valued Partners,

At Delfield, we endeavor to provide best-in-class products and service with the quality you expect while continuously looking for ways to improve and be competitive. Even with the best efforts, costs do still rise every year, and there is a need for a future price increase.

As a result, Delfield will implement a 5% price increase effective April 1, 2026, on all products, accessories, and parts. All new orders received on April 1, 2026, or later, must be at new pricing.

We will update AutoQuotes and Specifi with the new pricing by the effective date.

We appreciate and value our relationships and thank you for your support.

Please let me know if you have any questions.

Best Regards,

Tim
