Hello, again,

Seems to be too often I've contacted you with price increases but here we are again.

Now we are, as usual, reaching out individually but if you can please pass along this information as well via newsletter or posting.

As a result of the latest tariffs on all products imported into the United States, we have had to increase our prices immediately except for a limited amount of product in our New Jersey warehouse (see inventory list attached).

In the case of European imports, we have raised the price by a maximum of 10%. In the case of Chinese origin product, the maximum price increase is 95% despite tariffs being as high as 170%.

We have tried our best to mitigate price increases given the tariffs and currency depreciation. Thank you for your understanding.
