Subject: Update on Tariff surcharge on Moffat stands - NOW INCLUDES FINISHED GOODS

Caution: This message was sent from outside the company. Please do not click links or open attachments unless you **recognize** the sender *and* **verify** the content is safe.

Good evening-

Unfortunately, due to the increased tariff levied on parts and finished goods imported from New Zealand, Moffat is communicating its intent to add a tariff surcharge of 7% on finished goods. The percentage rate was increased to 15% last Thursday evening.

This is in addition to the 30% on stands confirmed last week.

Any surcharge will need to be added to the purchase order as an individual line item.

This is effective next Monday, 8/11/25.

This will be reviewed again in January or sooner if the US government's position on tariffs changes.

Please share as necessary. Please let me know if you have any questions.

Updated pricing is being finalized and will be shared on availability.

Thank you, please call or email with any questions-

Kristian

Subject: Tariff surcharge on Moffat stands

Hello-

Please see attached announcement on the tariff surcharge specific to Moffat stands.

We can no longer absorb the import charges specific to certain items in our product line.

As a result, we are adding a 30% surcharge to all stands. Unfortunately, this is currently unavoidable.

Any surcharge will need to be added to the purchase order as an individual line item.

This will be reviewed again in January or sooner if the US government's position on tariffs changes.

Please share as necessary. Please let me know if you have any questions.

Thanks,

Kristian
