Subject: Important Update on Potential Tariff Impact

Dear Valued Customer,

We want to keep you informed about recent developments that may impact our industry. As trade policy continues to evolve, proposed tariffs could affect the cost of certain goods and materials. While the details of these tariffs are still being finalized, we are closely monitoring the situation to assess any potential impact on our operations and pricing. If the assessed tariffs result in significant cost increases, it may become necessary to introduce a surcharge/tariff fee to offset some of the associated costs.

At this time, any impact of the China tariffs will be communicated by our individual brands. Please know that providing you with the highest-quality products and the best customer experience in the industry—while maintaining transparent and fair pricing—has always been, and continues to be, our unwavering commitment.

We are dedicated to minimizing any potential impact on your business and will keep you updated as more information becomes available. Should additional tariffs be implemented and result in any surcharge/tariff fees, this letter serves as your official 60-day notice of potential implementation. Our individual brands will promptly inform you and provide a detailed explanation of the changes, including the precise timing of their implementation.

We sincerely appreciate your support and partnership. If you have any questions, please do not hesitate to reach out to your account manager.

Thank you for your business.

Best Regards,

Jim Courtright
Sr. Vice President of Sales, Americas
Welbilt
