OPTIC.Cooking & Digital Services

PRICE LIST

VALID FROM 01-2026

CHEFTOP-X™ Digital.ID™
OPTIC.Cooking

Available only for CHEFTOP-X™ Digital.ID™

Let OPTIC.Cooking do it!

With OPTIC.Cooking your oven does more than just cook. It recognizes food and automatically starts cooking processes!

Leveraging advanced Artificial Intelligence algorithms, OPTIC.Cooking learns the recipes it is taught, recognizes the food placed into the oven, and automatically starts the proper cooking program. With OPTIC.Cooking, the operator only has to place the food into the oven, close its door, and wait a few seconds for OPTIC.Cooking to select and start the right cooking program. It's a perfect and foolproof assistant.

Installation requirements

OPTIC.Cooking accessory

- ✓ For an optimal use of the accessory, 20 Mb/s are required for upload/download of data. 10 Mb/s is the minimum connection speed supported.
- ✓ The trays must comply with the standard size for the type of oven (e.g. GN 1/1 oven - GN 1/1 trays).

For more information see all installation requirements in the OPTIC.Cooking installation manual.

Service activation

OPTIC.Cooking digital service

Accessory available only by subscribing to:

- ✓ Digital.ID™ **Premium**
- or
- ✓ Data Driven Cooking **Enterprise** + OPTIC.Cooking add-on.

Pricing details in the following pages on Unox digital services.

Training

How to teach OPTIC.Cooking to recognize your cooking programs.

You can teach OPTIC.Cooking up to 15 cooking programs per oven. To do this, just follow the 3 key steps listed below:

- 1 Create cooking programs:** create 1-step cooking programs and save them in your library.
Data acquisition: insert the tray with food into the oven to allow OPTIC.Cooking to recognize it. Follow the guided procedure. The process will take about 25 minutes per cooking program. All acquired data will be automatically uploaded to the cloud.
- 2**
- 3 AI Recipe Book Creation*:** data acquired during the data acquisition phase create an advanced neural network, enabling the oven to automatically recognize and start the cooking programs covered by the training process.

- ✓ Your AI Recipe Book can include a maximum of **15 cooking programs**.
- ✓ Service activation includes the ability to create the AI Recipe Book by generating a **new neural network up to 10 times****.

*Before starting the creation of your AI Recipe Book, we suggest concluding the data acquisition of as many recipes as possible.

**You can access cooking program data saved in the cloud on any OPTIC. Cooking-compatible oven. When you buy an oven, you get 10 credits to create and recreate your AI Recipe Book, if you need more you can buy them.

Extra Credits

Purchasable if it is necessary to create the AI Recipe Book more than 10 times.

Additional Credits
to create your
AI Recipe Book

Price (VAT excluded)

Services
Digital.ID™

Unox Digital.ID™ operating system

It's all in your Digital.ID™. Sign in and go.

DIGITAL  ID

Have you ever dreamed of controlling your oven from home or while walking? Pair it with your devices to make your dream come true.

Unleash the power of your Digital.ID™. Create your account and log in to your oven to save your cooking programs on the cloud along with all customizations. The account stays in constant sync with the most recent changes and allows you to edit them directly from your devices. What you see on your phone is always paired with what you have on your ovens. And viceversa.

With Digital.ID™ Premium you also extend your product warranty up to 5 years / 12.000 operating hours.

Base

Digital.ID™ account **up to 5 ovens**

- ✓ Interface personalisation
- ✓ CHEFUNOX / SPEEDUNOX libraries
- ✓ Digital.ID™ app
- ✓ Profiles management
- ✓ DIGITAL.Training***
- ✓ Live Technical Assistance
- ✓ **LONG.Life** warranty
